A Few Frequently Asked Questions

Q. What should I do with batteries?

A. Alkaline batteries, used mostly in toys and flashlights, can be thrown away with regular trash. Nickel Cadmium (Ni-Cd), Nickel Metal Hydride (Ni-MH), Lithium Ion (Li-ion) and Small Sealed Lead (Pb) can be recycled at special bins located at Lowes, Home Depot or Best Buy. Always call first before making the trip.

Lead Acid, (automotive, motorcycle, etc.) should be taken to any store that sells lead acid batteries. If you are purchasing a new lead acid battery, most places give a discount off the purchase of the new battery when you bring the old one in.

Q. You don't take motor oil at HHW, so what can I do with it?

A. Several service stations in Centre County accept used motor oil from residents. The Centre County Recycling and Refuse Authority keeps a list of motor oil recyclers available for residents who need to dispose of their used motor oil. Visit www.centrecountyrecycles.org/autowaste for a list of service stations that can take your motor oil (as well as antifreeze) off of your hands.

If you have a recycling question, please email Amy Schirf, the Authority's Education Coordinator at aschirf@centrecountyrecycles.org.
